12.50%

Capsule

Cork

Code

CABPIN

Region and Country

Languedoc, France

Grapes

Pinot Noir

Producer

The De Cibeins family own and run the estate and are considered pioneers in viticulture, introducing mediterranean varieties to the area.

Climate, viticulture, winemaking

This estate extends over 70 hectares with 25 hectares situated in the Corbières region and 45 hectares producing IGP d'Oc wines. Situated on clay and limestone soils on the northern edge of the Alaric hills, the vineyards are protected from the intense Mediterranean heat enabling a long, slow ripening period.

The grapes go through cold maceration prior to fermentation in order to extract the optimum amount of freshness, flavour and tannin. During fermentation, the wine is carefully controlled in inert atmospheric conditions before being racked off twice. The two separate rackings of wine are then blended. Ageing occurs on its lees until the following spring.

Tasting Notes

Rich, decadent aromas of morello cherry, bitter chocolate and ripe raspberries. Bursting with juicy red fruit flavours on the palate alongside undertones of dried figs and hazelnuts. Complexity balances a light, supple body leading onto a lasting redcurrant finish

Good to know

The estate has been certified HVE Level 3 sustainable and are slowly converting to organic farming parcel by parcel. The family are devoted to reducing their impact on the environment and encourage biodiversity in their surrounding areas whilst still preserving the original expression of their wines.

Vegetarian and vegan friendly.
