Grapes

Malbec

Producer

The Viniterra winery was founded in 1997 by leading oenologist Adriano Senetiner.

Climate, viticulture, winemaking

The vineyards of Luján de Cuyo sit at altitudes of around 1000m, (3280 feet) above sea level. Combined with the intense sunlight experienced during the day and the cold night temperatures, the wines produced show deep concentration of flavour and structure. The soils are clay/loam.

Grapes are hand-harvested at night to avoid the day's heat and to preserve the highest quality. Three days of cold maceration are followed by eight days of fermentation between 26 - 28 °C. The wine then macerates for a second time for 20 days. Ageing takes place in French oak barrels, of which 50% are new, for 12 months. The resulting wine is blended and aged for at least eight months in bottle prior to release. The Select Malbec is cold-stabilised, but not fined and may require decanting.

Tasting Notes

Rich ripe blackberries and smoky leather with a sweet raspberry top note. Bold and bright, the palate sees juicy bramble fruit and damson flavours through to spicy characteristics from the extended oak ageing. Sweet, supple tannins provide structure.
